

COSEKE

Enterprise document and records management for East Africa's
public and private sector, since 1990

Turn paper backlogs into systems your team can search in seconds.

"Quality means no compromise."

We help organizations capture, manage, share, and preserve their information
assets, reducing overhead and improving operational efficiency.

Who we are

Coseke is a Pan-African information and content management specialist. Since 1990 we've helped government and private-sector organizations capture, manage, share, and preserve their records, replacing paper backlogs with searchable, governed systems. We deliver on established platforms including Hyland OnBase, Kodak Alaris, and OnBoard by Passageways, backed by infrastructure partners Dell EMC, HPE, Huawei, NetApp, Veeam, and Cisco.
